Integration Principle	Which Linkages are particularly relevant to this principle?	Which of the three models would best promote translating these linkages into practice?
Best ensures delivery of the right service, in the right place, at the right time, by the right practitioner		
Best ensures positive health outcomes in behavioral health and somatic care using measures that are timely and transparent		
Best ensures preventive care, including early identification and intervention		
Best ensures care across an individual's lifespan		
Best ensures positive consumer engagement		
Best aligns with treatment for chronic conditions		
Best ensures the delivery of culturally and linguistically appropriate (CLAS) and competent services that are evidence-based and informed by practice-based evidence		
Best ensures that the system is adaptable over time, as other payment and delivery system reforms occur, without loss in value or outcomes		
Best ensures program integrity and cost-effectiveness		
Best ensures administrative

efficiencies at state, local, plan, provider, and consumer/family levels		
Best ensures seamless transitions as service needs change, and as program eligibility changes
